Receipt is acknowledged of the Amendment filed June 11, 2008.

*Reasons for Allowance*

Claims 1-17 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: the best prior art of record, Takabayashi et al., taken alone or in combination of other references, does not teach or fairly suggest a method or a power system or an integrated circuit comprising, among other things, wherein the method comprises the step of setting the reference voltage such that the voltage supplied to the power input of at least one logic circuit of the chip is equal to the predetermined maximum operating voltage of this logic circuit (claim 1); wherein the reference voltage is set so as to supply to the power input of at least one logic circuit a voltage equal to the predetermined maximum operating voltage of this logic circuit (claim 5); and wherein the sensing point is located at the power input of the logic circuit known to be the first to be damaged in the case of a power voltage increase on the power input lead (claim 7), as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
